

Warranty Terms Inverter Powerstocc XXXX Excellent

Warranty Terms According to Your Needs

Centrosolar AG offers several types of warranty terms, depending on the customer's needs.

Warranty Coverage

Centrosolar AG offers a warranty in the above mentioned period (ex billing date) for products with integrated options for damages caused by defects in either workmanship or material.

Repair or replacement of the product or of the components of the product depends on Centrosolar AG's evaluation of the issue.

To determine the warranty period, the end customer has to send either a copy of the purchase invoice or of the invoice for the warranty extension to Centrosolar AG, if demanded.

Damages Not Covered by the Warranty:

Direct and indirect damages and entitlement to damages which have been caused by one of the following reasons are not covered by the Centrosolar AG warranty:

- Improper installation or operation
- Misuse
- Manipulation
- Damages caused by transport
- Return of damaged goods in improper packing
- Inadequate ventilation
- Operating failures caused by external influence (e.g. high voltage, lightning, fire, rough handling etc.)
